

GLOSSARY

AFU	air filtration unit	IgG	immunoglobulin G
AST	aspartate aminotransferase	IgM	immunoglobulin M
ATA	alimentary toxic aleukia	IM	intramuscular
BA	biological agent	IND	investigational new drug
BD	biological defence	Ip	inter peritoneal
bid	bs in die (twice daily)	IPE	individual protective equipment
BW	biological warfare	IV	intravenous
cc	cubic centimetres(s)	kg	kilogram(s)
CCHF	crimean-congo haemorrhagic fever	mg	milligram(s)
CNS	central nervous system	ml	millilitre(s)
COLPRO	collective protection	mm	millimetre(s)
CO ₂	carbon dioxide	NBC	nuclear, biological, and chemical
CFS	cerebrospinal fluid	PA	protective antigen
daltons	unit of mass – 1.657 x 10 ⁻²⁴	PCR	polymerase chain reaction
DIC	disseminated intravascular coagulation	po	per os (orally)
DNA	deoxyribonucleic acid	PSP	paralytic shellfish poisoning
DPRE	displaced persons and refugees	q	quaque (every)
ELISA	enzyme-linked immunoabsorbant assay	qid	quarter in die (four times a day)
FA	fluorescent assay	RNA	ribonucleic acid
g	gram(s)	ROI	ratio of infection
GC	gas-liquid chromatography	ROM	restriction of movement
GI	gastrointestinal	RVF	rift valley fever
HCl	hydrochloric acid	SEB	staphylococcal enterotoxin B
HPLC	high pressure liquid chromatography	SIBCRA	Sampling and Identification of Biological Chemical and Radiological Agents
ICLC	lysine polyadenosine	tid	ter in die (three times daily)
		VEE	venezuelan equine encephalitis
